### DETAILED ACTION

1. Claims 1-38 have been examined.
2. The indicated allowability of claims 20-38 in the previous Office action dated March 25, 2005 are withdrawn in view of the 101 issues as outlined below.

#### ***Claim Rejections - 35 USC § 101***

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-38 have been rejected under 35 U.S.C. 101 because the claims are not tangible. These claims define a method or device wherein elements or features of the claimed invention are not necessarily implemented in hardware; based on the disclosure of the specification the claims are directed to an arrangement of software. See specification, pg. 14, 1<sup>st</sup> paragraph, last sentence, pg. 22, 1<sup>st</sup>-2<sup>nd</sup> paragraph and pg. 35, 2<sup>nd</sup> and 3<sup>rd</sup> full paragraphs. It is suggested to amend the claims to specify a hardware related embodiment, such as amending the preamble of the claims to recite a smart card or the like, and/or defining at least one of the steps as necessarily implemented in hardware.

***Claim Rejections - 35 USC § 112***

4. Regarding claim 9, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.

See MPEP § 2173.05(d).

***Allowable Subject Matter***

5. Claims 1-38 recite subject matter that is not suggested nor taught by the prior art of record.
